MicroStation Experience

This image is pure MicroStation. Just imagine what we can accomplish working together!

The above graphic was one of several images generated to illustrate proposed coastline improvements to the prime minister of Barbados. It was generated utilizing MicroStation engineering drawings and completely rendered in MicroStation. [See Panoramic Views here.](#)

Let us transfer our knowledge to you by expanding your horizons in MicroStation and/or InRoads. [Contact us](#)

About Us

The Envision Group helps its customers achieve their full potential in critical areas of the business operations - areas that have a direct impact on the efficiency and profitability of the organizations we serve. Here's how.

We help technical staff master the complexities of MicroStation & InRoads CAD software so they can **realize** a much faster return on investment.

We provide consulting, Implementation, training, and support services for MicroStation, InRoads, and InRoads Survey designed to **maximize** the efficiency and productivity of your organization.

We turn dull two-dimensional plans into three-dimensional renderings so you can clearly **visualize** the value and benefits of the proposed project.

Events

Bentley:

[Mid-Continent MicroStation Users Conference](#) - August 13-14, 2003

[Bentley 2003 InRoads Conference](#) - November 2-5, 2003 - Scottsdale, AZ.
(meet us there)

[Bentley 2003 GEOPAK Conference](#) - December 15-17, 2003 - Ft. Lauderdale, FL

Others:

[SIGGRAPH 2003](#) - July 27- Aug. 1 - San Diego, CA.

[2003 International HEEP Conference](#) - Sept. 28 - Oct. 2, 2003 - Cheyenne, WY

Have an event you would like us to list? Please send us the information.

MicroStation Tip

Did you know that you can import a text file into MicroStation?

You can find it under *File>Import>text*. Just select the ASCII file you wish to include in your drawing and MicroStation will use your active text settings and element attributes to place the text in your drawing. Alternatively, you can use the key-in "include" or "include path: filename" to select or specify the file.

InRoads Tip

Ever need to know the direction of water flow relative to your surface? Use the 'trickle' command. Place a data point on your surface and InRoads will display a line along the flow path water would follow.

The 'Trickle' command can be found under *Evaluation>Hydrology and Hydraulics>Trickle*. If you don't see the Hydrology commands, activate them under *Tools>Application ADD-Ins*.

Turn on *Dynamics* in the Trickle dialog box to interactively track water flow relative to your cursor.

Have a MicroStation or InRoads question? [Submit](#) it to us and you just might see your answer in next months newsletter.

Open enrollment

Open-Enrollment Classes With Seats Available.

InRoads Survey Basics - Aug. 6,7	Madison, WI
InRoads Site - August 13,14	Madison, WI
InRoads Fundamentals - Aug. 26-29	Madison, WI
InRoads Delta V7 to V8 - Sept. 24,25	Madison, WI
InRoads Level 2 - Sept. 30 - Oct. 3	Madison, WI

MicroStation V8 Admin Update - Aug. 11-12	Madison, WI
MicroStation Fundamentals - Sept. 9-11	Madison, WI
MicroStation Advanced - Sept. 16-18	Madison, WI
MicroStation V8 User Update - Aug. 13-14	Madison, WI
MicroStation 3D - Oct. 15-17	Madison, WI

On-site training

How you can benefit from on-site training

- Eliminates travel expenses.
- You can train twice as many people compared to off-site classes.
- Flat rate from us, no hidden or undefined costs
- Option of working with your data vs. "off-the shelf" material.
- Project work can double as training material.
- Your computers, your network, your facilities, your schedule.

With as few as 3 or 4 students, on-site training can save you money.

- [Find out more.](#)
- [Request a quote for training customized to your needs.](#)

Our Guarantee

We want your investment in training to be a smart business decision. Therefore, any student can retake any class for any reason without incurring additional registration fees. Just that simple.
