

The Envision Group Inc. specializes in MicroStation, InRoads, AutoCAD, Civil 3D & CAiCE software. We utilize our experience by teaming with you to provide training, consulting, and support to users and system administrators. We also provide 3D modeling and rendering services using MicroStation, InRoads, and other advanced software.

News

Wisconsin Department of Transportation Announces Plans to Implement Civil 3D

At the ACEC/WisDOT Transportation Improvement Conference in March, the Wisconsin Department of Transportation announced their plans for the implementation of Civil 3D department-wide.

The Envision Group - New Services

You may already know us as a nationally recognized leader in training and support of MicroStation and the related design packages InRoads, InRoads Site, and InRoads Survey, but did you know our company also includes internationally known expertise for AutoDesk applications? This includes civil applications and incorporates **implementation, training and support of AutoCAD, Civil 3D, Map 3D, Vault, and CAiCE**. We provide all levels of training from introductory courses to advanced system management.

Give us a call to discuss any needs you may have.

The Envision Group - Website Redesigned

Make sure to check out our newly redesigned website at <http://www.theenvisiongroup.net>. All classes and content have been updated and organized to fit the new layout. Envision Graphics is also no longer a separate entity and can be found at the link above. [Let us know](#) if you have any issues viewing the new design.

Legal Stuff:

We do not sell Bentley or Autodesk products.

MicroStation and InRoads are Bentley products and trademarked as such.
AutoCAD, Civil 3D, and CAiCE are Autodesk products and trademarked as such.
We only offer this information as a benefit to our subscribers.

InRoads Tip

[<< back to top](#)

InRoads Locate Lock

When working with surfaces the locate lock has a unique effect on some surface commands. There are two modes to the locate lock, Locate Feature and Locate Graphics.

[\[INROADS TIP \]](#)

AutoCAD Tip

[<< back to top](#)

Dialog Box for File Selection

Have you ever found yourself selecting the File=>Save As command in AutoCAD (or any vertical product) and instead of getting a dialog box where you can browse to the location to save the new file you are prompted to key in the full path?

[\[AUTOCAD TIP \]](#)

Civil 3D Tip

[<< back to top](#)

Using Output Parameters to Control Subassembly Behavior

Have you ever wanted to have a shoulder subassembly follow the slope of the lane adjacent to it? To ensure that this is the case, use a Lane subassembly such as LaneOutsideSuper that specifies an output parameter of Lane %Slope.
