AccuSnap and the keyboard

Ctrl+Shift

Option 1:

By holding down on the keyboard the Ctrl+Shift keys you can temporarily suspend AccuSnap as you work.

Option 2:

Wouldn't be nice if AccuSnap worked with the Place Fence tool? Holding the Ctrl+Shift key has the opposite effect on Place Fence tool. By holding down on the keyboard the Ctrl+Shift keys you can get AccuSnap to work with the Place Fence tool.

J and U

Everyone is using AccuDraw right...

There are two new AccuDraw shortcut key-ins that will interact with AccuSnap.

With the focus in the AccuDraw Dialog box **J** will toggle AccuSnap on/off.

With the focus in the AccuDraw Dialog box **U** will suspend AccuSnap for the remainder of the command.

Try it, AccuDraw is not evil.

[Robert Mecham](#) is a partner with the firm [The Envision Group](#) in Madison, WI. The firm specializes in MicroStation and the InRoads Suite of products. In addition to providing training for MicroStation & InRoads, they offer visualization services and consulting for clients throughout the world.
